After successful screenings of “**The Emblem of Turkey, The Kurdish Problem**” in California’s Global Arts Film Festival, Scotland’s International Human Rights Film Festival, and Vancouver Amnesty International Film Festival, K.L.A. will present the film in Toronto. This documentary captures Jiyars one-month journey to Turkey and the North of Kurdistan to discover if war can transform to peace. Facing horror and heartbreak across Turkey, the director meets those from both sides who have been tragically cut in the middle of the conflict. And in each place, he discovers unforgettable tales of survival, resilience, ritual and recovery.

The director will be providing a presentation. Discussion will be held at the end.
